WORK EXPERIENCE

Front-End Developer

Elegance Themes | Tetovo

2022 - 2023

As a Front-End Development Specialist and former CEO of Elegance Themes, I excel in creating innovative, Bootstrap-powered website themes. My expertise lies in transforming web design concepts into dynamic, user-friendly digital experiences, focusing on both aesthetics and functionality.

Full Stack Web Developer

Radiantix | Tetovo

2023 - 2024

As a Full Stack Web Developer at Radiantix, I embarked on a journey that melded the art of design with the precision of programming, creating cohesive, user-centric digital experiences. My tenure was marked by a harmonious blend of front-end and back-end development, where I utilized HTML, CSS (inclusive of advanced frameworks like Bootstrap and Tailwind CSS), and JavaScript to sculpt interactive and aesthetically pleasing user interfaces. Concurrently, I delved into server-side logic with PHP, ensuring seamless data management and application functionality.

Teaching Assistant

Digital School | Tetovo

2024

As a Programming Teaching Assistant, I specialize in teaching HTML and CSS, engaging young learners in interactive web development concepts. My ongoing role involves crafting hands-on lessons that enhance students' design and coding skills, ensuring they grasp the fundamentals of creating visually appealing and functional websites.
